LONDON, Dec. p.—The Tokio dispatch announcing the arrival of a Russian fleet of Chemulpe was communicated to the Persisn Office here by the Associated Press, and was received with apprehension, though it was not confirmed by any Foreign Office dispatch from the FarEast. It was said that if the information from Tokio is correct it would almost certainly nullify any negotiations, however pacific, now proceeding between Russian and Japan. The Japanese legation had no contirmation of the Tokio report, and Baron Haynshi, the Japanese minister, said to the Associated Press that he was inclined to discredit it.

YOKOHAMA, Doc. 0.—Advices received here from Tokic to-day say Russia's reply to the Japanese proposals has not yet been received, and it is not believed there that it will be finally decisive, but will probably necessitate further negotiations on the subject of minor dotals. It is believed that unless Japan's minimum domands are virtually conceded the cabinet at Tokio may decline any amendments. In any case a section of the Japanese due is expected to impacab the cabinet for its apparent lack of aggressiveness, but the result is doubtful, as the

government can dissolve the house if op-position threatens to embarrass its for-eign policy. Japan, generally, is calmly awaiting Russia's reply, ready to end the suspense one way or the other, but re-solved not to yield anything of her pres-ent moderate stand.
